EDUCATION

MS **University of Colorado Boulder** | 3.94 GPA August 2021 – Present
Computer Science (Anticipated: 05/23)

BS **University of Colorado Denver** | 3.45 GPA August 2008 - May 2013
Chemistry | Certificate: American Chemical Society
Biology

PROJECTS

Random Search Strategies In Herbivores, Carnivores, and Omnivores 2021

Recent research has shown that animals move through unfavorable and extremely variable environmental conditions using random search strategies, specifically the one simulated by composite correlated random walk (CCRW) model. Utilizing R and eight animal datasets from MoveBank, we explored the effectiveness of CCRW and Levy walk on three different dietary preferences: herbivores, carnivores, and omnivores. We determined that the CCRW remains as the better model to depict movements when compared to Levy walk, regardless of diet.

Stellarium Code Contributor 2020

Stellarium uses OpenGL to render realistic images of the sky, in real time, straight from the comfort of your computer. After teaching myself Qt, I successfully merged pull requests made by the Stellarium community. I implemented a recent search function for ease of usability and updated the user's manual to reflect the changes. Also, activated a sorting mechanism that was shown to be helpful.

SKILLS

Programming

- Python
- C/C++
- Scala
- Java
- R
- Matlab
- SQL
- MS SQL Server
- SciPy
- NumPy
- sklearn
- Qt
- Git
- Linux
- Windows
- MacOS
- JavaScript
- HTML

COURSEWORK

Undergraduate

- Computer Science 2: Data Structures
- Discrete Structures
- Principles of Programming Languages
- Introduction to Data Science with Probability and Statistics
- Computer Systems
- Discrete Structures Workgroup
- Algorithms

Graduate

- Dynamic Models in Biology
- Natural Language Processing
- Design and Analysis of Algorithms
- Big Data Architecture (Spring 2022)
- Probabilistic Models
- Cybersecurity
- Machine Learning (Spring 2022)

EXPERIENCE

SGS (Wheat Ridge, CO)

Volatile Organic Department

Analytical Chemist

May 2016 – May 2019

Organic Department

Laboratory Technician

August 2015 – May 2016

UCHealth (Denver, CO)

Physical Therapy and Rehabilitation Clinic

Patient Access Representative

August 2012 – August 2015

Undergraduate Pre-Health Program

Student Internship

May 2012 – May 2013

University of Colorado (Denver, CO)

Chemistry Department

Teaching Assistant | Grader

August 2011 - May 2013

University of Colorado Anschutz Medical Campus (Aurora, CO)

Biochemistry and Molecular Genetics | Principal Investigator: Elan Eisenmesser, PhD

Undergraduate Research Assistant | Internship

August 2009 - August 2011

PUBLICATIONS
